DISCOVERY PROGRAM FOR COLLEGE STUDENTS - HEAVILY SUBSIDIZED QUICK RESPONSE NEEDED

The Israel Discovery Program, created for people aged 18-28, is a comprehensive 2-week volunteer experience with enhanced programming on the weekends to especially appeal to this age group.

VFI will underwrite up to \$1,000 per American volunteer to defray travel costs.

The cutoff for applying is July 10, 2022.

From the Sar-El website:

Sar-El invites you to an exciting and educational two weeks! During the first week, you will volunteer on an army base, have activities to enrich your knowledge

about the IDF, and hear from soldiers in Intelligence units and from interesting figures from the world of Israeli Hi-tech. An eventful weekend will take place including hiking Masada at sunrise, visiting the Dead Sea, volunteering in agriculture, and spending Shabbat on a kibbutz with stargazing.

During the second week of volunteering, you will also be exposed to the challenges Israel faces and receive tools for how to deal with them when you return home. You will complete this incredible experience with a final day on the Fauda base! You will have the opportunity to meet past combat soldiers from special units in the IDF. The program is respectful to those who keep kosher and shabbat.

The inaugural trip is **July 24-August 8th.**

A truly enhanced experience. If you have young people interested, please contact Marcy Cohen at 908.635.4429

Your feedback keeps us current on updated contact information. If you know someone who should be receiving our emails, please let us know.
